

# Note to our salespartners and friends

Speyer, 28.3.2008

We are very sorry to tell that after a long severe sickness we lost our good friend and one of our best sales partners Roland Coddens on Thursday, March 27<sup>th</sup>!

Roland was well known in European world of microlight aviation, been one of the enthusiastic pioneers since beginning of this class of aviation.

We sent our sincere condolences to his wife, his sons Christophe and Didier. We wish them they will be able to continue the successful operation at their airfield in Basy Thy in Rolands spirit.

He will stay unforgotten for us!

*The FK-lightplanes team Speyer*
